Resolution and Recommendation: The result indicates a 20% success rate for Honours & 0% success rate for Program students, as the four Honours & one Program students had failed to qualify in one or

more papers in their fifth Semester. Apart from that, all other papers of all other semesters were cleared by all the students. For these students, it was decided to advise them to review exam papers to identify specific areas where they struggled and then seek feedback from faculty members on topics or concepts that need more attention.
