

# Future Plan

Department of Chemistry  
*Khatra Adibasi Mahavidyalaya*

1. Enhance the research facility and actively engage students in upcoming research projects.
2. To take step for making well equipped and advanced laboratory for better practical sessions.
3. Organize State and National Level Seminars sponsored by various funding agencies.
4. To take steps for increasing the number of teachers.
5. Conduct guest lectures featuring experts from diverse branches of Chemistry, fostering interdisciplinary knowledge and exposing students to a broader spectrum of the subject.
6. Provide students with hands-on experience through small research projects and paper presentations, encouraging a culture of inquiry and academic exploration.
7. Integrate more Information and Communication Technology (ICT) enabled teaching methods.
8. Introduce research skill enhancement certificate courses related to Project writing, PPT/poster presentation, Excell/Origin software, Python programming, etc.
9. Introduce some research activities for faculty members with the financial assistance received from funding agencies, like UGC, CSIR, DST etc.
10. Internship Courses in Neighbouring Industry: To make arrangements so that our students are permitted to conduct internship courses in neighbouring industries.
11. Engage in collaborative ventures with other institutions under MoU, including joint publication books or journals, organizing seminars, invited lectures, and preparing course modules.
12. Motivate faculty members to pursue research and publication, encouraging their participation in seminars, workshops, faculty development programs, orientation, and refresher courses.
